## WHY GLOBALINKS LEARNING ABROAD?

GlobaLinks Learning Abroad is a representative of 25 top-ranked universities in Australia, New Zealand, and the United Kingdom. Through financial support from our university partners, we have been appointed to provide FREE bundled services, including application and pre-departure assistance, in order to prepare you for a degree program abroad. With more than 20 years of experience sending students abroad, we can easily refer you to the information and materials necessary for applying to study at any of our university partners. Enrollment is ultimately determined by each institution.

## BENEFITS OF APPLYING THROUGH US

- The support and enrollment assistance we provide you is FREE!
- We save you time and money. The process is faster through us. Once we receive your complete application, we ensure the university receives it within 24-48 hours. You also save money on application fees, postage, long distance phone calls, and certification services.
- Scholarships specifically for students applying through GlobaLinks Learning Abroad are offered by some of our university partners. We also offer a Discovery Scholarship for all degree programs in Australia.
- Our knowledgeable and helpful staff members will walk you through each step of the process - from your initial search for a program, through the application and pre-departure process.
- Faster responses to all your concerns and questions via direct GlobaLinks Learning Abroad contacts.
- Universities are more apt to look at an application submitted by us, because they know it has been reviewed by our office and is complete upon arrival.
- You will have your own MyLearn account, where you can store information about universities and programs, apply, track your application, view your offer, and receive information on how to move through the pre-departure process.

# HOW TO APPLY

In three steps, you can submit your application

## STEP 1. CREATE YOUR MYLEARN ACCOUNT

You can begin the application process by creating a MyLearn account. This is your own personal space on our website. Once you have created your account, you can:

- download application forms
- store information about degree programs
- download university prospectuses
- track your application
- view your offer
- move through the pre-departure process

Each step of the way, you will receive information about the application(s) in your account, a 'To Do List' of the next steps to take, and additional information about studying in Australia, New Zealand, and the U.K.

## STEP 2. SEARCH FOR DEGREES AND DOWNLOAD UNIVERSITY PROSPECTUSES

The Degree Finder allows you to search for degrees in Australia, New Zealand, and the U.K. in all fields of study. Search results provide a list of universities which offer your desired programs. You can then save any program information of interest in the 'Filing Cabinet' of your MyLearn Account.

Through your MyLearn account, you can also access undergraduate and postgraduate electronic prospectuses from all universities GlobaLinks Learning Abroad represents. These prospectuses will give you detailed information about your programs of interest and allow you to choose the program which is best for you.

## STEP 3. APPLY

Through your MyLearn account, you can download and complete the application to the university(ies) of your choice. Many of our partner universities waive the application fee when you apply through us. If you are applying for an undergraduate program in the U.K., you must apply through UCAS ([www.ucas.com](http://www.ucas.com)). Instructions for applying to an undergraduate program in the U.K. will be provided in your MyLearn account and via the degree coordinator.

# STRAIGHT FROM THE SOURCE

GlobalLinks Learning Abroad Alumni

**M. Wiggers // University of Queensland  
Master of Business Administration (MBA)**

*"Studying abroad is a learning experience in itself. Most of your time will be spent studying towards your degree, but in addition, you will learn so much more outside the classroom. Living in a different culture is important for your growth as a person. Experiencing a variety of people and multiple ways of thinking will be of aid to you throughout life and for the remainder of your career. If you have the opportunity to study abroad, do not let it pass you by!"*

**K. Hockett // University of Sydney  
Bachelor of Medicine/Bachelor of Surgery (MBBS)**

*"Seeing new places and meeting new people will always be my favorite part of traveling abroad, but actually moving to another country and intending to stay for several years adds so much more to the experience. Knowing that my husband and I will be here for so long enables me to really invest in friendships. The University of Sydney has managed to select a cohort full of motivated people who will change the face of medicine, and we get to help shape each other's professional lives and create ties that will influence our future practices."*

**A. Roberson // Kingston University  
Bachelor of Laws (LLB)**

*"I chose to study law in the UK because it will widen the possibilities of becoming an international entertainment lawyer and allow me to more clearly see my goal of working within the USA and UK. Kingston's LLB program is bar none one of the best law programs and decisions I've ever made. The professors and lecturers are nearly all published and guide you through your degree with passion for the field of law and encouragement, so that you can find where you fit into the system, be it solicitor or barrister."*

# REASONS TO COMPLETE A DEGREE OVERSEAS

1

## UNPARALLELED STUDENT EXPERIENCE

The student experience in another country is one of discovery, independence, new perspectives, new friendships, global viewpoints, and academic achievement.

Education systems in Australia, New Zealand, and the U.K. offer internationally recognized degree programs; a reputation for world-class teaching, training, and research facilities; and widely-recognized diversity in programs, all of which are supported by innovative, research-intensive, and technology-savvy learning environments.

2

## CAREER ADVANTAGES

Studying and living in another country gives you first-hand international experience, which sets you apart from other job candidates. Companies need global-ready graduates with skills in adaptability, critical thinking, and problem solving, as well as the ability to analyze issues from multiple perspectives.

3

## RATINGS AND RANKINGS

Many of our partner universities are recognized as top institutions in the world for educational research and student satisfaction. Regardless of the institution you choose, the education will be of high quality.

4

## CHOICE AND FLEXIBILITY

All of the universities must meet stringent quality assurance measures and audits, plus adhere to government-mandated guidelines for providing education to international students. Their faculties and facilities are some of the best in the world.

5

## AFFORDABILITY

With the availability of shorter term programs, costs to study abroad can be comparable to some programs in the United States. Cost is often on par with out-of-state tuition rates. Reduced program lengths allow you to save on tuition and accommodation costs, and lead to an extra year or more of earning potential.

# UNIVERSITY OPTIONS

## AUSTRALIA

Australian National University  
Bond University  
Griffith University  
International College of Management, Sydney
